-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-5 and 7-19 are rejected under 35 U.S.C. 102(b) as being anticipated by Shimaya et al (US 5,184,983).

Shimaya et al disclose a device comprising: a device having an allowance for creeping, comprising: a base member (41) having a receiving element; and an overlaying member (42), subject to creeping, overlaying on top of the base member (see Fig 1), the overlaying member having a region at one end thereof, wherein a tip member (unnumbered, left side of Fig 1) is free from restriction or force exerted thereon due to creeping deformation thereof (see Fig 1), the overlaying member (42) is made of composite material (col. 3 lines 6-9), the tip member is free from restriction due to creeping by means of leaving a gap between the tip member and the receiving element (it is inherent that there is always a gap between two elements that abut each other), the base member is the base of a tensioning arm or chain guide (see Fig 1), the overlaying member is the face or shoe of a tensioning arm or chain guide (see Fig 1), and a method for reducing the deformation of a device due to creeping, comprising the steps of: providing a base member (41) having a receiving element; providing an overlaying member (42), subject to creeping, overlaying on top of the base member, the

overlying member having a region at one end thereof; and allowing room for deformation due to creeping between the base member and the overlying member within the region (see Fig 1).

Response to Arguments

Some further comments regarding the applicant's remarks are deemed appropriate.

The applicant argues that the Shimaya et al reference fails to meet the limitations of the claims, because the clip is attached prior to deformation, which is a method of assembly and not germane to the patentability of the device itself. Therefore the Shimaya et al reference meets the limitations of the claims.

The applicant's remarks have been accorded due consideration, however they are not deemed fully persuasive.

Conclusion

3. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
